An aerial photograph of a landscape, likely a coastal or wetland area, with several colored overlays. A yellow line outlines a large area on the left. A cyan line runs diagonally from the top left towards the center. A magenta line runs parallel to the cyan line, slightly to its right. A green line outlines a large, irregular polygonal area in the center-right. The area inside the green outline is divided into three horizontal sections by two green lines. The number '1738104' is located in the upper left, within the yellow-outlined area. The number '1701117' is located in the lower right, within the green-outlined area. The background shows a mix of brown, green, and greyish textures, possibly representing water, vegetation, and bare ground or sand.
